

THE PULBOROUGH WALKING ADVENT CALENDAR

Are you looking for a Covid safe activity for the dark evenings in December? Why not join in the Pulborough walking advent calendar? This will be a fun way to get exercise and keep everyone – children and adults alike – occupied in the run-up to Christmas.

From 1st to 28th of December, 24 houses in Pulborough will be displaying an illuminated advent window between 4.30 and 8.30pm for passers-by to admire. Each window will be numbered, and the first six will be lit from the 1st December. From the 7th onwards, another window will be lit each night, just as if the windows of an advent calendar are being opened. Then from 24th to 28th December, all the windows will be displayed.

Families and individuals will be able to walk or cycle round the area to see the calendar as it unfolds.

Running alongside this will be a Christmas Trail organised by St Mary's School PTA – this will be available all day throughout Advent – with clues and the chance to win a small prize if you complete it successfully!

A map showing where to find the windows and the instructions for the Christmas Trail, will be available the week before 1st December via the St Mary's School newsletter, The Pulborough Update or by e-mailing miqkelland@aol.com (any time after 27th November).

We would ask that when you are going out to see the windows, you should respect the privacy of the homeowners who have volunteered to take part, and follow whatever Covid restrictions apply at the time.

This is an initiative involving the village churches and your local school and deserves your support. We all hope you enjoy it!

Organised by Pulborough URC and St Mary's Primary School PTA with help from St Mary's Parish Church and Pulborough Brooks Baptist Church.
